Voter Perception Survey (VPS)

NI SA BULA VINA KA SAKA

We trust this communication and advice finds you all well.

On behalf of the Fiji Elections Office (FEO), this serves to kindly advise on the Voter Perception Survey (**VPS**), aimed at acquiring feedback on how the FEO can enhance its services; particularly the Postal Voting service provided to eligible diaspora voters.

Through this exciting program, the FEO aspires to understand how to better serve Fijians living overseas, in future elections.

As part of this significant exercise, the High Commission wishes to share this VPS Google form link <https://www.feo.org.fj/voter-perception-survey/>, for your perusal, please.

Kindly note that to participate in the VPS, a registered voter must provide their Electronic Voter Registration Number (as indicated on their Voter Identification Card), Full name, and Date of birth. Please note that this requested information is solely for data verification purposes and will not influence the responses provided.

The survey is brief and should take no longer than 10 minutes to complete.

Please be informed that the VPS will run until the 04th of October 2024.

The High Commission avails itself should any further information or clarification be required.
